

## TERMS OF REFERENCE: ANALYSIS ON TANZANIA'S IMPLEMENTATION OF THE AFRICA MINING VISION CLUSTER 5 (MINERAL SECTOR GOVERNANCE)

### Background

The Policy Forum (PF) is a network of more than 60 Tanzanian civil society organisations drawn together by their interest in augmenting the voice of ordinary citizens to influence policy processes that help in poverty reduction, equity and democratisation with a specific focus on public money accountability in both central and local levels. PF seeks to contribute to enhanced governance and accountable use of public resources by improving civil society capabilities and opportunities to influence and monitor policies.

To this end, PF wishes to analyse the implementation of the Africa Mining Vision (AMV) in Tanzania with a specific focus on mineral sector governance (Cluster 5).<sup>1</sup> Unveiled at the February 2009 African Union Summit in Addis Ababa as the overarching continental framework to promote transparent, equitable and optimal extraction of mineral resources to stimulate industrialisation through value addition and diversification and enhance linkages to the broader national and sub-regional economies. To help domesticate the AMV at the country level, the Country Mining Vision (CMV) tool was conceived requiring the governments of member states (Tanzania being one among them) to align their national objectives with the ideas underpinning the tenets<sup>2</sup>.

### Rationale

For many years, Policy Forum has been involved in advocacy to enhance transparency in the use of public resources, increase awareness of oversight bodies on the equitable use of public resources as well as promoting domestic resource mobilisation. The current PF- Strategic Plan 2021-2024 focuses on contributing to inclusive decision making of which provision and accessibility of information related to the extractive industry is a prerequisite. PF's aspiration on transparency, hence, tallies with the AMV cluster 5 goal of promoting sustainability and a well-governed mining sector that is inclusive and appreciated by all stakeholders including surrounding communities.

---

<sup>1</sup> The AMV has 9 tenets that form the bedrock of the AMV Action Plan. These are Cluster 1: Mining Revenues and Mineral Rents Management; Cluster 2: Geological and Mining Information Systems; Cluster 3: Building Human and Institutional Capacities; Cluster 4: Artisanal and Small-Scale Mining; Cluster 5: Mineral Sector Governance; Cluster 6: Research and Development; Cluster 7: Environmental and Social Issues; Cluster 8: Linkages and Diversification; and Cluster 9: Mobilising Mining and Infrastructure Investment.
